## Conferences

Parents, I'd like to take this opportunity to remind you that we will again be conducting Student-Led Conferences this year. Because of your input, we have made a number of improvements to our system. We changed to student-led conferences for two reasons: Research tells us that students who are involved in setting their own goals, sharing them with parents, and being accountable for those goals in an environment such as student-led conferences increase their achievement. Having students present their goals also increases responsibility. Because student-led conferences have been shown to build responsibility and increase achievement, we feel this is the right approach to conferencing. If you would like to schedule another time to discuss concerns with the teacher, please feel free to do so. Thank you for choosing CCS! We will be keeping a strict schedule! Please be prompt or you will be asked to reschedule. -Mr. Geary
